

### AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A mask composition comprising:
  - (1) a water insoluble three-layer substrate, wherein said substrate comprises at ~~least one~~ an inner layer and two outer layers, wherein said inner layer comprises polypropylene and said outer layers comprise ~~comprising~~ rayon fibers; and
  - (2) an emulsified liquid composition comprising:
    - (a) from about 0.01% to about 10% of an oily component;
    - (b) from about 0.01% to about 10% of a hydrophilic surfactant;
    - (c) from about 0.1% to about 3% of a water-soluble thickening polymer which provides the liquid composition a viscosity of from about 500mPa·s to about 60,000mPa·s; and
    - (d) an aqueous carrier.
2. (Original) The liquid composition of Claim 1 wherein the surfactant is nonionic.
3. (Original) The liquid composition of Claim 1 wherein the thickening polymer contains an acrylic polymer.
4. Cancelled
5. (Original) The liquid composition of Claim 1 further comprising a water-soluble humectant.
6. (Original) The liquid composition of Claim 1 further comprising a chronic whitening agent.

7. (Original) The liquid composition of Claim 6 wherein the chronic whitening agent contains at least an ascorbic acid derivative and a vitamin B<sub>3</sub> derivative.
8. (Original) The mask composition of Claim 1 wherein the water-insoluble substrate is so configured to cover the majority of the area of facial skin.
9. (Original) The mask composition of Claim 1 wherein the water-insoluble substrate has a thickness of from about 100µm to about 1cm.
10. Cancelled
11. (Original) A method of treating the facial skin comprising the steps of:
  - (a) applying the mask composition of Claim 1 to the majority of the area of the facial skin;
  - (b) allowing the mask composition to stand on the facial skin for a period of time no longer than until any portion of the mask composition is dried;
  - (c) removing the mask composition from the facial skin; and
  - (d) removing the remainder liquid composition left on the facial skin.
12. (Original) The method of any of Claim 11 wherein, at step (b), the period of time is from about 5 to about 45 minutes.
13. (Original) The method of any of Claim 11 wherein, at step (a), the mask is applied and fit on the facial skin by pressing on the mask to the facial skin using finger tips.
- 14-16. Cancelled
17. (Previously Presented) The mask composition of Claim 1 wherein the water-insoluble substrate comprises eye openings and a mouth opening.
